Dear Educator,

Thank you for picking the Santa Monica Pier Aquarium as your field trip destination! We are very excited that you will be visiting our facility. This disc contains packets that were developed to help you, as the classroom teacher, and your students get the most out of your visit. Enclosed in each packet, you will find information and activities that correlate to the program you will be attending with your class. You are encouraged to complete as many of the activities as you can, as they will help your students gain a better mastery of the California State Standards.

We also ask for your assistance in evaluating these resources to make them the best they can be.

Please take a few moments to give us your feedback at the following websites:

**PreK and Kindergarten: Scientist Senses**
